

AMIRUL ISLAM

Full-Stack Web Developer

[Email](#) | [GitHub](#) | [LinkedIn](#) | [Portfolio](#) | Phone: +8801315399059 | Location: Sylhet, Bangladesh

PROFESSIONAL SUMMARY

Full-Stack Web Developer with hands-on experience building responsive web applications using Next.js, React, TypeScript, Express.js, and MongoDB. Experienced in building secure authentication systems, RESTful APIs, and scalable full-stack applications with clean, maintainable architecture.

TECHNICAL SKILLS

Frontend: Next.js, React.js, TypeScript, JavaScript (ES6+), Tailwind CSS, TanStack Query

Backend: Node.js, Express.js, MongoDB, Better-Auth, JWT, RESTful APIs, Gemini AI API

Libraries: React Hook Form, Zod, Recharts

Tools: Git, GitHub, VS Code, Vercel, Render, Netlify, Cloudinary, ImgBB

PROJECTS

BookBridge

• [Github Repository](#) • [Live Link](#)

A full-stack academic book marketplace that enables students to buy, sell, and request used books through a secure and user-friendly platform.

Technologies Used: Next.js, TypeScript, Express.js, MongoDB, Better-Auth, Tailwind CSS, React Hook Form, Zod

Role & Impact:

- Designed a full-stack academic marketplace for students to sell, donate, and request used academic books .
- Developed RESTful APIs to handle book creation, dynamic search, automated requests, and order workflows.
- Secured backend endpoints using Better-Auth and integrated Zod schema validations for data integrity.

SportNest

• [Github Repository](#) • [Live Link](#)

A full-stack sports facility booking platform for exploring venues, checking availability, and booking through a smooth UI.

Technologies Used: Next.js, Express.js, MongoDB, Tailwind CSS, REST API, JWT Authentication

Role & Impact:

- Engineered a sports facility booking platform enabling real-time venue exploration and slot reservations.
- Designed REST API architecture to manage facility availability, active time slots, and user bookings.
- Implemented JWT authentication and structured MongoDB schemas for fast query performance and data persistence.

MediCare Connect

• [Github Repository](#) • [Live Link](#)

A full-stack healthcare platform that enables patients to book appointments, doctors to manage consultations, and admins to oversee healthcare operations.

Technologies Used: Next.js, Express.js, MongoDB, Better-Auth, JWT, Stripe, Tailwind CSS, HeroUI

Role & Impact:

- Architected a multi-role healthcare platform supporting customized flows for Patients, Doctors, and Admins.
- Integrated Stripe API for payment processing alongside digital prescription and appointment booking features.
- Implemented session-based authorization with Better-Auth token to ensure safe patient record and data handling.

EDUCATION

BSS in Economics (Hons) • Murari Chand College • 2026–Present

HSC (Science) • Dakshin Surma Govt. College • 2023–2025 | GPA: 3.75

LANGUAGES

- Bengali — Native
- English — Intermediate

CERTIFICATIONS & TRAINING

Web Development Bootcamp With Programming Hero • 2026
